

## Spring 2010: 6<sup>th</sup> Semester Traditional Track Option Courses (Adult Health)

You will be taking 5 courses this semester: H361, H362, H363, H364, and H365. Register for 1 section of each. H362 is limited to 10 students per clinical group. There will be one experience using the high fidelity simulator that will be scheduled on a clinical day. Kaplan Testing is scheduled outside of regular class times. Check Oncourse 2 weeks prior to the start of classes for announcements about orientation schedules. **Due to circumstances beyond our control, some section sites may change.** *When choosing your H362 clinical, it is important that you choose a section that does not conflict with your H364 clinical. If you choose an H364 clinical that starts with OB/Peds, you must choose an H362 section with March/April hospital experiences. If you choose an H364 clinical that ends in OB/Peds, you must choose an H362 section with hospital experiences in January/February.* Contact Debbie DeMeester for questions at [ddemeest@iupui.edu](mailto:ddemeest@iupui.edu)

**NURS-H 361: Alterations in Health II** These 2 sections meet together.

21825	9:00 am – 11:50pm	NU 212	Thursdays	Sutton/Kost
